

ABOUT US:

Foot Function Lab has been making quality orthotics for Doctors; Podiatrists, Chiropractors, Orthopedic Surgeons, and Physical Therapists. Our orthotics are fabricated by hand and also by using the latest computer aided design and manufacturing technology (CAD/CAM). Mr. Arch is a Board Certified Pedorthist with 35 years working with patients. He will help train all Doctors & Staff in our Lab at no cost. Training is also available online on our website at Orthotics.net or by Phone.

Foot Function Lab is best known for our Dress Orthotics that fit into men's and women's dress shoes and sandals. Remember that we are shipping you 100% custom-made orthotics from your patient's cast. We do not take anything pre-made off a shelf.

So join thousands of Podiatrists and Chiropractors that are totally satisfied with our orthotics and service. Foot Function Lab is not about selling a few pairs of orthotics to doctors, we are about training doctors to be successful in using our full line of orthotics for a variety of shoes and helping Doctors to market the orthotics to their patients successfully.

Our staff welcomes your business and input:
Len Kerns, C. Ped. "Mr. Arch"
Dr. Marc Rosen, D.C.
Call today

1-800-785-3668.

Whether you intend to use orthotics in dress, sport, or work shoes we can make a pair of orthotics for every patient and every shoe style. Fits in sandals, pumps, flats, dress, and all sports shoes.
